

CURRICULUM VITAE

DATE PREPARED: July 2023

PART I: General Information

Name: JANET ELIZABETH HALL

Office Address: National Institute of Environmental Health Sciences
Division of Intramural Research
111 TW Alexander Drive
Research Triangle Park, NC 27709

Phone: 919-943-6424

Email: janet.hall@nih.gov

Education:

1972 B.A./B.P.E., MCMASTER UNIVERSITY, CANADA
1979 M. SC., MCMASTER UNIVERSITY, CANADA
1981 M.D., MCMASTER UNIVERSITY, CANADA
2007 M.A., HARVARD UNIVERSITY, MA

Postdoctoral Training:

1981-1982 Resident 1, Internal Medicine, McMaster University
1982-1983 Resident 2, Internal Medicine, McMaster University
1983-1984 Chief Resident, Internal Medicine, McMaster University
1984-1985 Clinical Fellowship, Endocrinology, Massachusetts General Hospital
1986-1987 Research Fellowship, Endocrinology, Massachusetts General Hospital

Licensure and Certification:

1984 Fellow of the Royal College of Physicians and Surgeons of Canada
1984 Ontario Canada Medical License (Inactive)
1985 Massachusetts Medical License
1986 American Board of Internal Medicine
1988 American Board of Internal Medicine (Endocrinology & Metabolism)

Appointments:

1984-1987 Research Fellow in Medicine, Harvard Medical School, Boston, MA
1987-1990 Instructor in Medicine, Harvard Medical School, Boston, MA
1990-1999 Assistant Professor of Medicine, Harvard Medical School, Boston, MA
1999-2007 Associate Professor of Medicine, Harvard Medical School, Boston, MA
2000-2005 Visiting Scientist, Massachusetts Institute of Technology, Cambridge, MA
2003-2014 Affiliate Faculty, Division of Sleep Medicine, Harvard Medical School, Boston, MA
2007-2016 Professor of Medicine, Harvard Medical School, Boston, MA
2014-2015 Consultant, NIEHS Intramural Program (Kelly Services Contract)
2015- Senior Investigator, National Institute of Environmental Health Sciences, National Institutes of Health, Research Triangle Park, NC

2016- Clinical Director, National Institute of Environmental Health Sciences, National Institutes of Health, Research Triangle Park, NC

Hospital or Affiliated Institution Appointments:

1984-1989 Clinical and Research Fellow in Medicine and Gynecology, Massachusetts General Hospital, Boston, MA
1990-1992 Clinical Assistant in Medicine, Massachusetts General Hospital, Boston, MA
1993-1998 Assistant in Medicine, Massachusetts General Hospital, Boston, MA
1997-2014 Associate Physician, Active Affiliate Staff, Brigham and Women's Hospital, Boston, MA
1998-2005 Assistant Physician, Massachusetts General Hospital, Boston, MA
1998-2005 Affiliate Staff, Medical Service, Massachusetts Institute of Technology, Boston, MA
2006-2015 Associate Physician, Medical Service, Massachusetts General Hospital, Boston, MA
2015-2018 Clinical Associate, Medical Service, Massachusetts General Hospital, Boston, MA
2018- Consultant, Medical Service, Massachusetts General Hospital, Boston, MA
2015- Faculty, Inter-Institute Endocrine Training Program, NIH Division of Intramural Research, NIH, Bethesda, MD

Hospital and Health Care Organization Clinical Service Responsibilities:

1989-2014 Reproductive Endocrine Associates, Massachusetts General Hospital
1990-2014 Attending Physician, Endocrine Unit, Massachusetts General Hospital
1993-1994 Attending Physician, Medical Service, Massachusetts General Hospital

Major Administrative Responsibilities:

1988-2014 Director, Female Physiology/Pathophysiology, Reproductive Endocrine Unit, Massachusetts General Hospital
1996-2002 Assistant Chief, Reproductive Endocrine Unit, Massachusetts General Hospital
1996-1998 Education Unit, Massachusetts General Hospital
1998-2004 Associate Director, Education Unit, Clinical Research Program, Massachusetts General Hospital
2001-2002 Medical Director, Research Subject Advocate Program, General Clinical Research Center, Massachusetts General Hospital
2002-2014 Associate Chief, Reproductive Endocrine Unit, Massachusetts General Hospital
2006-2008 Director, Research Subject Advocate Program, General Clinical Research Center, Massachusetts General Hospital
2000-2014 Co- Director, Education Unit, Clinical Research Program, Massachusetts General Hospital
2007-2014 Medical Director of Ultrasonography, Reproductive Endocrine Unit, Massachusetts General Hospital
2008-2009 Director of Clinical and Translational Studies (MGH), Harvard CATALYST (CTSA), Harvard Medical School

Major Committee Assignments:

Hospital

1992-1997 Member, Subcommittee for Review of Research Proposals, Massachusetts General Hospital

- 1993-1994 Member, Taskforce on Clinical Investigation, Physiology Subcommittee, Massachusetts General Hospital
- 1993-1994 Working Group Leader, Taskforce on Clinical Investigation, Infrastructure Subcommittee, Massachusetts General Hospital
- 1996-1998 Executive Committee on Teaching, Internal Review Panel Member, Massachusetts General Hospital
- 1999-2010 General Clinical Research Center Advisory Committee, Member, Massachusetts General Hospital
- 2000-2014 Co-Director, Clinical Research Program Education Unit, Massachusetts General Hospital
- 2001-2007 Women's Health Coordinating Council, Research Committee, Member, Massachusetts General Hospital
- 2004, 2005 Scientific Advisory Committee Annual Meeting, Small Group Faculty Session, Massachusetts General Hospital
- 2006 Member, Department of Medicine Taskforce on Women's Health, Member, Massachusetts General Hospital
- 2009-2011 Steering Committee Member, Women in Medicine Committee, Department of Medicine, Massachusetts General Hospital

Harvard Medical School

- 1999-2006 Research Core, Center of Excellence in Women's Health, Member, Harvard Medical School
- 1999-2002 Co-Chair, Research Core, Center of Excellence in Women's Health, Harvard Medical School
- 2002-2006 Executive Committee, Scholars in Clinical Science Program, Harvard Medical School
- 2001-2010 Faculty Fellowships Selection Committee, Harvard Medical School
- 2002 Mentoring Awards Selection Committee, Harvard Medical School
- 2003-2014 Council of Distinguished Scholars, Harvard Medical School
- 2003 HMS Accreditation Site Visit, Faculty Participant, Harvard Medical School
- 1996-2012 Executive Committee, Building Interdisciplinary Research Careers in Women's Health (BIRCHW) Program, Harvard Medical School
- 2008-2009 Education and Training Executive Committee, Harvard CATALYST (CTSC), Harvard Medical School
- 2008-2009 Chair, Education & Training/Information & Technology Subcommittee, Harvard CATALYST (CTSC), Harvard Medical School
- 2008 Member, Promotions Committee for Professor Candidate
- 2010 Chair, Promotions Committee for Professor Candidate
- 2010-2013 Curriculum Developer, Advanced Curriculum Committee, Harvard CATALYST (CTSD), Harvard Medical School
- 2011-2014 Member, Promotions & Reappointments Committee

National Institute of Environmental Health Science/National Institutes of Health

- 2014-2016 Attending Member, Medical Executive Committee, Clinical Center, NIH
- 2014-2016 Acting Member, Senior Leadership Committee, NIEHS
- 2015 Chair, NIEHS Search Committee for Epidemiology Branch Tenure-Track Position
- 2015- Member, NIEHS Division of Intramural Research Council
- 2015- Program Director, NIEHS Medical Student Research Fellowship, NIEHS
- 2015- Member, Board of Advisors, Medical Research Scholars Program, NIH
- 2015- Member, NIEHS Tenure-Track Review Committee

2016- Member, Senior Leadership Committee, NIEHS
 2016- Member, NIEHS Committee on Promotions I (COP1)
 2016-2017 Chair, NIEHS Search Committee for Epidemiology Branch Tenure-Track Position (#2)
 2016- Medical Executive Committee, Clinical Center, NIH
 2016- Member, NIH Medical Research Scholars Program Selection Committee
 2017- All of Us Trans-NIH Liaison Coordinating Committee, NIEHS Representative
 2017- Member, NIEHS Institute Standing Committee
 2017-2019 Human Resources Advisory Committee, NIH
 2018- Chair, Multi-Institute Clinical Research Panel, DIR, NIH
 2018 Member, NIEHS Search Committee for Epidemiology Branch Tenure-Track Position
 2019 Member, NIEHS Search Committee for Neurobiology Lab Tenure-Track Position
 2019- Member, NIEHS ICDA Task Force
 2019-2023 Bench-to-Bedside Review Committee, NIH, Intramural Research Program
 2020- Member, NIH Research Services Working Group
 2020 Member, NICHD Search Committee, Scientific Director
 2022- Member, NIH Research Services Working Group
 2021 Member, NIDDK Search Committee for Clinical Director
 2022 Member, NICHD Search Committee Clinical Director
 2022 Member, NIEHS Search Committee, Director, Extramural Research Program
 2022 Senior Member, NIEHS-All of Us Workshop Planning Committee
 2023- Member, NIA Institute Standing Committee

National/International

1991 Adolescence to Adulthood Working Group, Member, NIH Office of Research on Women's Health
 1991 Reproductive Biology Core Group, Member, NIH Office of Research on Women's Health
 1992 Reproductive Biology Study Section, Ad-Hoc Member, National Institutes of Health
 1993 NIH Conference: "Kallmann's Syndrome: A Disorder of Neuronal Migration", Co-Chair, National Institutes of Health, NICHD/NIDDK
 1993 General Clinical Research Centers Program, Grant Reviewer, NIH, National Center for Research Resources
 1993 General Clinical Research Center Program, Site Visit Team, NIH, National Center for Research Resources
 1993 Reproductive Biology Study Section, Ad-Hoc Member, NIH, National Center for Research Resources
 1994 General Clinical Research Center Program, Site Visit Team, NIH, National Center for Research Resources
 1995 NICHD Conference: "Psychobiology of Infertility and Reproductive Disorders", Co-Chair, National Institutes of Health
 1994 SBIR Study Section, Ad-Hoc Member, National Institutes of Health
 1996-2000 Reproductive Endocrine Study Section, Member, National Institutes of Health
 1997 Special Emphasis Panel, Member, National Institutes of Health
 1997 Adolescence to Adulthood Working Group, Member, NIH Office of Research on Women's Health
 1998 General Clinical Research Center Program, Site Visit Team, NIH, National Center for Research Resources
 1998 University-Industry Research Chair, External Reviewer, Medical Research Council of Canada

1998 Special Emphasis Panel, Member, National Institutes of Health
1999 Special Emphasis Panel, Member, National Institute of Environmental Health Sciences
1999 Special Emphasis Panel, Member, National Institutes of Health
2001 General Clinical Research Center Program, Site Visit Team, NIH, National Center for Research Resources
2002-2005 Scientific Advisory Council, Member, The Center for Menstrual Cycle and Ovulation Research, University of British Columbia
2002 General Clinical Research Center Program, Site Visit Team, NIH National Center for Research Resources
2002 Special Emphasis Panel, Member, National Institutes of Health
2002 Special Emphasis Panel, Chairperson, National Institutes of Health
2004-2006 External Advisory Committee, NIH Cooperative Reproductive Research Science Centers at Minority Institutions Program
2004 Reproductive Endocrine Study Section, Ad-Hoc Member, National Institutes of Health
2004-2005 Integrated and Comparative Endocrinology and Reproduction Study Section, Ad-Hoc Member, National Institutes of Health
2005-2009 Gynecology, Reproduction and Andrology Study Section, Member, National Institute of Child Health and Human Development Initial Review Group, National Institutes of Health
2005 Chair, Biology of the Perimenopause Study Section, National Institutes of Health
2006 Special Emphasis Panel (Fellowship), National Institutes of Health
2006 Special Emphasis Panel, National Institutes of Health
2007 Chair, Special Emphasis Panel, NICHD, National Institutes of Health
2008 External Reviewer, Canadian Fund for Innovation Research Hospital Fund, Large-scale Institutional Endeavours
2008 Chair, Special Emphasis Panel, NICHD, National Institutes of Health
2009 External Reviewer NIH Challenge Grants
2009 Special Emphasis Panel, NICHD, National Institutes of Health
2010 Special Emphasis Panel, NICHD, National Institutes of Health
2016 Special Emphasis Panel, NICHD, National Institutes of Health
2017 Special Emphasis Panel, NIA, National Institutes of Health
2019 Chair, Special Emphasis Panel, NICHD, National Institutes of Health
2019-2020 Planning Committee, International Congress in Endocrinology 2020, Buenos Aires, Argentina
2020 Chair, Special Emphasis Panel, NICHD, National Institutes of Health

Professional Societies:

1975-1993 American College of Sports Medicine, Member
Awards Committee, 1988-1991
Abstract Reviewer, 1989-1990
1984-1992 American Federation of Medical Research, Member
1986- Women in Endocrinology, Member
Nominating Committee, 1996-1999
Chair, Nominating Committee, 1997-1998
Awards Committee, 2002-2005
Chair, Awards Committee, 2003

President, 2006-2008

Past-President, 2009

- 1986- Endocrine Society, Member
Abstract Reviewer, 1990-2006
Public Communications Committee, 1996-1999
Nominating Committee, 1999-2001
Endocrine Self-Assessment Steering Committee, 1999-2005
Chair, Nominating Committee, 2000-2001
Research Affairs Committee, 2000-2004
Chair Clinical Research Taskforce 2001-2003
Chair, Clinical Research Subcommittee, 2002-2003
Vice President, Clinical Science, 2003-2006
Chair, Clinical Scientist Taskforce, 2006
Annual Meeting Steering Committee, 2006-2009
Reproductive Endocrine Section Team Leader, 2006-2009
Co-Chair, Bridge Grant Program, 2007-2008
President Elect, 2010
President, 2011
Immediate Past President, 2012
Executive Committee 2010-2013
Performance and Compensation Steering Committee 2010-2013
Strategic Planning Committee 2010-2011
Sex Steroid Assays Reporting Task Force, 2014
Laureate Awards Committee 2018-2022
Chair 2020-2022
EDC Advisory Panel 2017-
- 1999-2010 Association for Patient-Oriented Research, Member
Communications Committee Member, 2009
- 2000-2014 American Medical Association, Member
- 2000- The North American Menopause Society, Member
- 2001-2008 Federation of American Societies for Experimental Biology (FASEB)
Board of Directors, 2001-2004
Public Advocacy Executive Committee, 2002-2004
Chair, Funding Conference NIH Committee, 2003,2004
Strategic Planning Conference, 2004
Public Advocacy Subcommittee
Clinical Research Subcommittee, 2005-2008
Chair, 2005-2006
Presidential Nominee, 2006
- 2002-2009 American Society for Reproductive Medicine, Member
- 2007- Society of Diagnostic Medical Sonography, Member
- 2006- Association of American Physicians, Member
- 2013-2016 American Board of Internal Medicine (Exam Committee)
- 2022- American Clinical & Climatological Association, Member

Community Service Related to Professional Work:

- 1994-1996 Visiting Endocrinologist, Harvard Community Health Center
- 2005-2007 Consultant and Facilitator, Puberty Education Program, Buckingham, Browne &

Editorial Boards:

- 1990-2002 Reviewer, The Endocrinologist
1990- Reviewer, Fertility & Sterility
1990- Journal of Clinical Endocrinology & Metabolism
 Reviewer, 1990-present
 Editorial Board, 1994-1999
 Associate Editor, 1999-2004
 Associate Editor, 2009-2010
- 1990- Reviewer, Endocrinology
1990 Reviewer, Metabolism
1990- Reviewer, Menopause
1990- Reviewer, Human Reproduction
1990 Reviewer, Alcoholism: Clinical & Experimental Research
1990 Reviewer, Acta Endocrinologica
2000-2002 Current Opinion in Endocrinology and Diabetes
 Editorial Board, 2000-2002
 Section Editor, 2000-2002
 Editorial Consultant, American College of Physicians—PIER
- 2006 Reviewer, Gynecological Endocrinology
2006 Reviewer, Biology of Reproduction
2005- Endocrine Reviews
 Reviewer, 2005-present
 Associate Editor, 2015-2018
- 2018- Journal of Clinical Investigation

Awards and Honors:

- 1968 McMaster University Entrance Scholarship, McMaster University, Canada
1968 Ontario Scholar, Province of Ontario
1969 Canadian Fitness and Sports Directorate Award, McMaster University, Canada
1984-1990 Fellowship, Medical Research Council of Canada
1998- Listed in "The Best Doctors in America"
2000 A. Clifford Barger Excellence in Mentoring Award, Harvard Medical School
2002 Nominated for Best Lecturer in the Integrated Human Physiology Block, Harvard
 Medical School
2005 Partners in Excellence Award, Massachusetts General Hospital
2009- Association of American Physicians
2009, 2012 The Commonwealth of Massachusetts Governor's Citation
2017 Sidney H. Ingbar Distinguished Service Award, the Endocrine Society
2018 NIH/NIEHS Award of Merit for Outstanding Leadership in Development of a
 Translational Research Framework Tailored to the Environmental Health Sciences
2019 NIH Office of the Director Honor Award for Tenure-Track and Assistant Clinical
 Investigator Mentoring Program
2020 Clinical Center Director's Award
2021 Mentor of the Year Award, NIEHS
2022 NICHD Director's Award for Collaboration
2022 NICHD Director's Award

Part II: Research, Teaching, and Clinical Contributions

A. Narrative report of Research, Teaching, and Clinical Contributions

Research: I am a physician-scientist who studies human reproductive physiology and pathophysiology with a view to translating this information to benefit women with reproductive disorders. The focus of my research in the broad area of women's health is on the neuroendocrine interactions that govern normal reproduction and the changes that occur with aging. We have used this information as a backdrop to provide insights into the pathophysiology of clinical reproductive endocrine disorders.

I began my research career at McMaster University, investigating the effect of the menstrual cycle on physical performance and the underlying mechanism of these effects. At Massachusetts General Hospital Harvard Medical School where I was full time from 1984-2015, I focused on complementary studies in normal women and women with reproductive endocrine disorders including those with GnRH deficiency. Using a combination of clinical models that include pre- and post-menopausal normal women and women with GnRH deficiency, as well as physiologic probes including GnRH, GnRH agonists and antagonists and estradiol, estrogen receptor blockers and aromatase inhibitors, frequent sampling studies for measurement of LH and gonadotropin free alpha subunit, and neuroimaging studies, my group has determined that: 1) generation of the midcycle surge in women does not require an increase in the frequency or overall amount of GnRH contrary to what is seen in animal models; 2) estrogen negative feedback in women largely at both the hypothalamus and the pituitary in women; 3) the increase in GnRH pulse frequency that occurs during the luteal-follicular transition in normal women is not only highly correlated with, but is required for the luteal-follicular rise in FSH that is critical to folliculogenesis; 4) inhibin B which is constitutively secreted by granulosa cells increases in response to the luteal-follicular rise in FSH and plays a physiologic role in augmenting the estrogen-induced suppression of FSH in the mid-follicular phase; 5) inhibin B is an early marker of declining ovarian function in late reproductive life, preceding decreases in inhibin A and estradiol; 6) while A and inhibin B reflect ovarian function, they are not useful predictors of pregnancy outcome in patients undergoing assisted reproductive therapies. We have further shown that African-American women have higher estradiol levels throughout the menstrual cycle due to upregulation of ovarian aromatase function and expression in the ovary compared with Caucasian women, a finding that may help to explain the disparities in disease prevalence in these two populations.

We have shown that sleep has a profound inhibitory effect on GnRH pulse frequency in women in the early follicular phase while circadian factors do not appear to influence gonadotropin secretion in women. Women who work shifts have an increased prevalence of irregular menstrual cycles and our ongoing studies are examining the implications of the kind of sleep disturbance that occurs in shift workers on menstrual cycle dynamics. We have demonstrated that deep sleep is an important driver of the nighttime GnRH and LH secretion that are critical to the onset of puberty, but that LH secretion is relatively resistant to sleep interruption in pubertal children.

My research group has defined the underlying abnormalities in GnRH secretion in hypothalamic amenorrhea (HA), polycystic ovarian syndrome (PCOS) and acquired hypogonadotropic hypogonadism (AHH). We have developed the use of pulsatile GnRH to induce ovulation in a variety of disorders of ovulation. Using this form of treatment, conception rates are high in patients with isolated GnRH deficiency and Kallmann's Syndrome, HA and AHH and the risks of multiple gestation and hyperstimulation are lower than with alternative therapies. The importance of controlling the risk of multiple gestation is emphasized in studies in which we demonstrated the

profound economic and psychosocial impact of this complication of ovulation induction. These studies were instrumental in the adoption of national guidelines to reduce multiple gestation in ‘in vitro’ fertilization (IVF) programs. Our studies in PCOS have demonstrated that gonadotropin levels are decreased by obesity and that this decrease is mediated at a pituitary rather than a hypothalamic level and is accompanied by an increase in the clearance of LH. We have had a longstanding interest in patients with idiopathic hypogonadotropic hypogonadism and in collaboration with others at MGH have begun to understand the genetic underpinnings of this disorder. Most recently, we have determined that the early response to pulsatile GnRH in these patients can be used to unearth defects at the pituitary (including but not limited to GnRH receptor mutations) and at the ovary.

My laboratory has made significant contributions to understanding reproductive aging. Our contributions to the early understanding of the physiology of the inhibins, demonstrated a decrease in inhibin secretion from the ovary in regularly cycling women over 35 and helped to unravel the mechanisms underlying FSH regulation of inhibin B through stimulation of follicle recruitment and the importance of inhibin B in the follicular phase negative feedback control of FSH, independent of estradiol. We have also investigated the effect of aging neuroendocrine components of the reproductive system, using the model of postmenopausal women in whom ovarian steroidal inputs can be controlled. We have shown that in women, there are dramatic hypothalamic and pituitary changes that occur with aging – a decrease in secretion of LH and FSH with aging, a dramatic decrease in GnRH pulse frequency that is accompanied by an increase in the amount of GnRH secreted per bolus, a decrease in the pituitary response to GnRH with aging and prolonged disappearance of plasma LH with changes in the isoform composition of LH and FSH in postmenopausal women that is due in part to the loss of estrogen feedback and in part to aging per se. We have shown that estrogen negative feedback effects at both the hypothalamus and the pituitary are maintained with aging, but that estrogen positive feedback is attenuated with aging, mediated at the pituitary level. These studies support a model in which significant adaptations occur with aging in women that may function to prolong estrogen secretion despite dramatically declining ovarian function.

We conducted a randomized placebo-controlled trial of physiologic estrogen replacement in postmenopausal women to determine if aging differentially affects the responses to estrogen in areas of the brain involved in cognition using both FDG-PET and fMRI. Our preliminary results indicate that activation of the dorsolateral pre-frontal cortex in response to a targeted challenge is greater in younger than in older postmenopausal women before treatment and does not change with placebo treatment in either group. However, with estrogen treatment there is greater activation in the DLPFC in younger than older postmenopausal women suggesting that either aging per se or a greater duration of estrogen deprivation results in resistance to the beneficial effects of estrogen on cognitive function.

Since moving to NIEHS as a Senior Investigator, I have continued a number of longstanding collaborations and have developed new studies including new gene discovery and genotype/phenotype studies in patients with GnRH deficiency (normosmic idiopathic hypogonadotropic hypogonadism and Kallmann’s Syndrome). I was able to maintain my program using pulsatile GnRH for ovulation induction in patients with GnRH deficiency at MGH while working to move this program to NIH, but have had to discontinue the protocol and was not able to restart it due to issues relating to drug formulation. I am the PI on genotype/phenotype studies at NIH where we have performed detailed phenotyping on over 100 GnRH deficient patients. We have collaborated with MGH colleagues who are genotyping patients for this study. Within this collaborative group I lead the genotype/phenotype studies in women with hypothalamic amenorrhea. We have now shown that there is an increased burden of rare variants in genes discovered in GnRH deficient patients compared with normal women as well as an increased burden of rare variants in genes involved in metabolic signaling to the neuroendocrine reproductive axis. We hypothesize that

these variants may account for some of the individual variability in development of amenorrhea in response to known risk factors including diet and exercise. Independently of this collaboration, we are also involved in recruitment of GnRH deficient patients to NIEHS for genetic studies. At NIEHS we are further evaluating the variability in responsiveness to decreased energy availability in normal women in a tightly controlled interventional study. I am collaborating with investigators in the Epidemiology Branch to investigate the impact of environmental toxins on reproductive function. Finally, I am the PI on the NIEHS Personalized Environment and Genes Study (PEGS), a large, longstanding cohort in which DNA has been collected as well as extensive exposome data. NIEHS bench scientists use this study for follow-up translational studies on their genes or exposures of interest (genotype/phenotype studies). Computational capabilities have increased dramatically over the past five years and in conjunction with Co-PI Alison Motsinger-Reif we are investigating the effects of the environment and gene by environment interactions in common diseases. Results in this cohort will serve as a prototype for studies in larger cohorts as environmental data are added to the larger cohorts.

Teaching and Mentoring: I have a longstanding interest in mentoring. The bulk of my teaching involved the direct supervision of Fellows and students involved in clinical investigation. I was one of the first recipients of the Mid-Career Award for Mentoring in Clinical Investigation from the NIH (K24) and received the A. Clifford Barger Excellence in Mentoring Award from Harvard Medical School. I personally supervised one to two postdoctoral fellows per year and was involved in review of all applicants for research fellowships in the Reproductive Endocrine Unit and selection of those that to be supported by the Reproductive Endocrine Training Grant. I also personally supervised one to two pre-doctoral students per year for summer or full year training in clinical research, a number of whom were referred to my lab through the Harvard Medical School Pre-Matriculation Summer Program for Minority Students. I was Co-Director of the Reproductive Endocrine Unit Biomedical Research Career program that sought to identify promising pre-doctoral students and introduce them to clinical or translational research and particularly focuses on supporting the careers of minority students. In addition, I provided close supervision and mentoring to several Fellows and Junior Faculty in other departments such as Psychiatry and the HMS Division of Sleep Medicine. I supervised Endocrine Fellows in my clinic and as attending physician. I was Co-Director of the Education Unit of the MGH Clinic Research Program and was involved in the design and organization of courses for Fellows and investigators interested in clinical research and in the mentoring of clinical investigators and taught in numerous courses. I also developed and directed courses in clinical research for the HMS CATALYST. I was a regular contributor to the course in clinical investigation offered to MGH medical house staff. I taught in the HMS I and HMS II Reproduction sections and contributed to the HMS II Endocrinology section. I have contributed in reproductive endocrinology to several noted textbooks in Medicine, Endocrinology, and Reproductive Endocrinology. On a local level, I was very involved in mentoring beyond my personal trainees with an emphasis on women and minorities. This extended to my work with Women in Endocrinology and the Endocrine Society both of which are international in their reach.

Since moving to NIEHS, I have continued my interests and efforts to mentor the next generation of physician-scientists. Many of my mentees have been post-baccalaureate and post-doctoral (medical school) level trainees I am a member of the NIH Inter-Institute Endocrinology & Metabolism training program, give regular didactic sessions to trainees in the program and also lead several seminars per year in the Reproductive Endocrine & Infertility and Endocrinology & Metabolism training programs at UNC. but I am increasingly being called on to mentor the research experience for Endocrine Fellows from NIH, UNC and Duke training programs. Throughout my career I have been particularly aware of specific needs of under-represented minority individuals and have taken every opportunity to attract them to my program, meet them where they are and provide guidance, networking opportunities and opportunities to present at national meetings, as I do for my mentees across the board. I am extremely proud to have received the 2021 NIEHS Mentor of the Year Award.

Clinical Activities:

1989-2015 Endocrinology, Reproductive Endocrinology Massachusetts General Hospital

I attended on the Endocrine Service one month per year. My clinical practice was conducted in the Reproductive Endocrine Associates group practice, seeing Endocrinology patients with a focus on Reproductive Endocrinology--including menstrual cycle abnormalities, male and female infertility, hirsutism and management of the perimenopause and menopause. Inpatient admissions related primarily to clinical research activities. As the majority of patients were secondary or tertiary referrals, the complexity of management was generally high. As part of the treatment of infertility, I had an active ovulation induction program, which was both relatively unique in a department of Medicine, and was distinguished by high success rates and low rates of multiple gestation.

2007-2015 Medical Director of Ultrasound, Reproductive Endocrine Unit, Massachusetts General Hospital I supervised the ultrasound evaluation of female patients with reproductive abnormalities. I continue to read ultrasounds on a regular basis in my position as Clinical Associate, Medical Service, Massachusetts General Hospital.

Patient Load at MGH: Approximately 50 inpatient admissions per year for complex clinical investigative protocols and 350 outpatient visits per year.

Clinical Contributions: My studies on the use of pulsatile GnRH have defined the appropriate patient populations for its use and have pointed out the low risk of multiple gestation with this form of ovulation induction. Studies on the economic impact of multiple gestation highlighted the importance of this common side effect and have influenced the establishment of national guidelines for the number of embryos transferred during in vitro fertilization. Studies of the psychosocial implications of multiples have revealed areas of vulnerability that can be addressed through specific counseling and support services.

Other Relevant Information: Recognition as a leader in the field through:

1. Invitations to teach in local and national Continuing Medical Education courses;
2. Meet-the-Professor Sessions for the Endocrine Society Annual Meeting;
3. Reproductive Endocrine Editor of the Endocrine Society Self-Evaluation Program;
4. Chair of the Reproductive Endocrine Section of Clinical Endocrine Update, the Endocrine Society's National Postgraduate Course on four separate occasions;
5. Chair of the Reproductive Endocrine Section of the Curriculum Development Committee for the Association of Program Directors in Endocrinology and Metabolism;
6. Editor - Journal of Clinical Endocrinology & Metabolism 2000-2004 and 2010-2015
7. Section Editor - Current Opinion in Endocrinology & Diabetes 2000-2002
8. Included in Best Doctors in America 1998-present.
9. Contributions to leading on-line and print textbooks of Internal Medicine (Harrison's, ACP Medicine), Endocrinology and Reproductive Endocrinology.

Leadership: From a leadership perspective, in addition to the above, I was President of Women in Endocrinology, Vice-President, Clinical Science for the Endocrine Society and President of the Endocrine Society. In my positions in the Endocrine Society, I was involved in two separate rounds of strategic planning and during my Endocrine Society Presidency; I established a new focus for the Society on Health Disparities in Endocrinology and made significant advances in establishing the Society as a collaborative leader in the international community. As Clinical Director at NIEHS, I am a member of the Senior Leadership Team.

B. Funding Information

Current

ZID ES102465 NIEHS Division of Intramural Research Hall (PI) 10/01/2015-
Program in Clinical Research and Core Lab Support

The Program in Clinical Research provides support for the Clinical Research Unit (CRU), permitting scientists to conduct studies that involve on-site human sample collection, analysis and functional assessment.

ZIA ES103322 NIEHS Division of Intramural Research Hall (PI) 06/1/2015-
Studies in Patients with Congenital GnRH Deficiency
This Program is designed to understand the genetics, pathophysiology and genotype/phenotypic spectrum of patients with GnRH deficiency.

ZIA ES103323 NIEHS Division of Intramural Research Hall (PI) 10/01/2015-
Genetic Determinants of Hypothalamic Amenorrhea
In this study we are exploring the hypothesis that genetic susceptibility contributes to the variable responsiveness of women to the environmental insults that result in hypothalamic amenorrhea using candidate gene and whole exome sequencing approaches.

ZIA ES103323 NIEHS Division of Intramural Research Hall (PI) 10/01/2015-
Caloric Restriction, Environment, and Fitness: Reproductive Effects Evaluation Study (CaREFREE Study)
This study will investigate the effects of reduced energy input on pulsatile GnRH secretion in normal women and the determinants of susceptibility to altered reproductive axis regulation in relation to energy input reduction.

ZID ES103354 NIEHS Division of Intramural Research Hall (PI) 08/28/2020
Personalized Environment and Genest Study (PEGS) (formerly Environmental Polymorphisms Registry [EPR])
The Personalized Environment and Genest Study (PEGS) continues to recruit and maintain a cohort of individuals in whom environmental, health and genetic information is collected, supporting science within PEGS and as a resource to intramural and extramural investigators to understand the impact of the environment and gene x environment interaction on human health.

Completed Research Support

1984-1989 P.I., Medical Research Council of Canada, Fellowship
1985-1989 Co-P.I., N.I.H., R01 HD15080 (WF Crowley, Jr), Neuroendocrine Control of Reproduction in the Female
1985-1989 Co-P.I., N.I.H., N01-HD-32837 (WF Crowley, Jr), Clinical Pharmacology of LHRH Antagonists in the Female
1989-1996 Project Co- P.I., N.I.H., U54-HD-29164 (WF Crowley, Jr), Infertility: Defects in LH/FSH Synthesis-Secretion-Action" Project I: "Neuroendocrine Control of Reproduction in the Female"
1989-1996 Project PI (JE Hall), N.I.H., U54-HD-29164 (WF Crowley, Jr), Infertility: Defects in LH/FSH Synthesis, Secretion and Action "Project II: Treatment of Infertility due to Ovulatory Dysfunction"
1990-1993 P.I., FDA, FD-R-000477 (JE Hall), Pulsatile GnRH in Anovulatory Infertility
1996-2002 Project PI (JE Hall), N.I.H., U54-HD-29164 (WF Crowley, Jr), National Center for Infertility Research at MGH "Project I Control of FSH in the Female: Relation to Infertility"
2000-2002 Co-Director Research Core, DHHS, 213-98-0009 (JA Bigby), National Center of Excellence in Women's Health
2001-2002 Medical Director, RSA Program, N.I.H., M01-RR-01066 (J Mongan), General Clinical Research Centers Program
2001-2003 P.I., HMS Fund for Women's Health (JE Hall), Multiple Births Outcome Study

- 2002-2007 PI Subcontract, N.I.H., R01-HD-40291 (EB Klerman), Impact of Sleep Disruption on Menstrual Cycle Dynamics
- 2002-2009 P.I., N.I.H., R01-HD-42708 (JE Hall), FSH, Estradiol and Inhibin in Female Reproduction
- 2008-2009 MGH Director of Clinical and Translational Studies, NIH,UL1 RR 025758 (LM Nadler), Clinical and Translational Science Center
- 1999-2009 P.I., N.I.H., K24-HD-01290 (JE Hall), Neuroendocrine Control of Reproduction in the Female
- 2010-2012 Curriculum Development, NIH,UL1 RR 025758 (LM Nadler), Clinical and Translational Science Center
- 2009-2014 Co-Investigator NIH R01 MH082922 (H Joffe)
Defining the Mechanisms of Menopause Related Sleep and Mood Disturbance
- 1995-2015 P.I., N.I.H., R01-AG-13241 (JE Hall)
Aging and the Hypothalamic-Pituitary Reproductive Axis

D. Report of Teaching

1. Local contributions

a. Medical School Courses

- 1987-1988 HMS Introduction to Clinical Medicine
- 1995-1997 HMS I Endocrinology
- 1996 HMS II Renal/Endocrine/Reproductive
- 1997-1998 HMS I Endocrinology
- 1997-1998 HMS II Endocrine/Reproductive
- 2001, 2003 HMS I Endocrinology
- 2006-2010 HMS II Musculoskeletal, Endocrine and Reproductive Pathophysiology

b. Graduate Medical Courses

- 1985-2014 Clinical Conference Series, Reproductive Endocrine Unit, Massachusetts General Hospital
- 1985-2014 Journal Club, Reproductive Endocrine Unit, Massachusetts General Hospital,
- 1994-1994 Introduction to Clinical Investigation - Study Design: Physiologic Investigation, Clinical Research Program, Massachusetts General Hospital
- 1998, 2004 Grant Writing Seminar, Clinical Research Program Massachusetts General Hospital
- 1998-1999 Issues in Physiologic Investigation, Choices of Models in Physiologic Studies, Clinical Research Program Massachusetts General Hospital
- 1999, 2001 Introduction to Clinical Investigation – Study Design: Physiologic Investigation, Clinical Research Program Massachusetts General Hospital
- 2000-2002 Tools of Physiologic Investigation: Choices of Models, Clinical Scholars Program, Harvard Medical School
- 2004-2012 Physiologic Studies, Tools of Human Investigation for Medical House Staff, Massachusetts General Hospital
- 2006 Writing Your First NIH Grant as a Young Investigator: How to Write an NIH Grant, Clinical Research Program Massachusetts General Hospital
- 2006-2014 Writing Your First NIH Grant as a Young Investigator: The Review Process, Clinical Research Program Massachusetts General Hospital
- 2011-2014 Protocol Development, Design and Conduct of Clinical Trials, Clinical Research Program Massachusetts General Hospital
- 2011-2014 Subject Recruitment, Design and Conduct of Clinical Trials, Clinical Research

- Program Massachusetts General Hospital
- 2017-present Annual seminars for UNC Reproductive Endocrine & Infertility Fellows on: 1. Hypogonadotropic Hypogonadism; 2. Reproductive Aging; and 3. Management of the Menopause.
- 2017-present Annual seminars for the NIH Inter-institute Endocrine Training Program on: 1. Polycystic ovarian syndrome; 2. Management of Menopause; and 3. Amenorrhea and its Management.

c. Continuing Medical Education Courses

- 1986-1995 Lecturer, Reproductive Endocrine Postgraduate Course, Harvard Medical School, Boston, MA
- 1989-1996 Lecturer, Primary Care of Women Postgraduate Course, Harvard Medical School, Boston, MA
- 1991-present Lecturer, Massachusetts General Hospital Clinical Endocrinology Postgraduate Course, Harvard Medical School, Boston, MA
- 1991-present Problem Seminar, Massachusetts General Hospital, Clinical Endocrinology Postgraduate Course, Harvard Medical School, Boston, MA
- 1997-2002 Lecturer, Massachusetts General Hospital Primary Care Postgraduate Course, Harvard Medical School, Boston, MA
- 2001-2002 Lecturer, The X and Y: Current Topics in Gender-Specific Medicine , Harvard Medical School Postgraduate Course, Boston, MA
- 2009 Lecturer, Brigham and Women's Hospital, Reproductive Endocrinology & Infertility Postgraduate Course, Harvard Medical School, Boston, MA
- 2009 Workshop, Brigham and Women's Hospital, Reproductive Endocrinology & Infertility Postgraduate Course, Harvard Medical School, Boston, MA
- 2015 Lecturer, Current Trends in Medicine: Endocrinology, International Program in Medical Education, Harvard Medical School Postgraduate Program, Boston, MA

d. Advisory and Supervisory Responsibilities in Clinical or Laboratory Setting

- 1989-1990 Medical Student, Supervision of HMS Research Year and Honors Thesis, Harvard Medical School, Boston, MA
- 1989-1998 Supervision of 2 Fellows in Reproductive Endocrine Clinic, Massachusetts General Hospital
- 1990-2013 Attending in Endocrinology, Massachusetts General Hospital
- 1991 Undergraduate Student, Scholar of the College Research Project, Boston College, Brookline, MA
- 1991-1994 Medical Student, Supervision of HMS student research project - summer research experience (MGH Summer Minority Research Training Program), HMS Enrichment Program, HMS Soma Weiss oral presentation, HMS research year (NIH Minority Student Supplement) and MPP thesis advisor, Harvard Medical School, Boston, MA and the Kennedy School of Government, Harvard College, Cambridge, MA
- 1993 Undergraduate Student, Honors Thesis Project, Boston College, Brookline, MA
- 1993-1994 Attending Physician, Medical Service, Massachusetts General Hospital
- 1994 Medical Students, Supervision of HMS summer student research project (MGH Summer Minority Research Training Program) and HMS Soma Weiss poster, Harvard Medical School
- 1994 Medical Student, Supervisor of research project, Brown University, Providence, RI

1995 College Student, Supervision of summer research project, Massachusetts General Hospital

1995 College Student, Supervision of summer research project, Summer Minority Research Training Program, Massachusetts General Hospital,

1996-1997 Post Baccalaureate Student, Supervisor of year-long research project, Massachusetts General Hospital

1996-2001 Medical Student, Supervisor of student research projects - summer (MGH Summer Minority Research Training Program), summer (GCRC Student Fellowship), HMS Enrichment Program and HMS Soma Weiss posters, HMS research year (NIH Minority Supplement) and HMS Honors Thesis, Harvard Medical School, Boston, MA

1997-1998 Post Baccalaureate Student, Supervision of year-long research project, Massachusetts General Hospital

1998-2013 Supervision of Fellow in Reproductive Endocrine Clinic, Massachusetts General Hospital

1998 Co-supervisor of Project Success Summer Research Internship, Harvard University

1998 Medical Student, Supervision of HMS Advanced Biomedical Sciences Program research project, Harvard Medical School

2000 Medical Student, Supervisor, HMS II PASTEUR Program summer research, Harvard Medical School

2000 Medical Student, Supervisor, Summer Research Fellowship, University of Massachusetts Medical School, Worcester, MA

2000-2004 Medical Student, Supervisor of research project - HMS Pre-matriculation Summer Program for Minority Students, HMS Enrichment Program, HMS Soma Weiss posters, HMS Honors Thesis, Harvard Medical School

2002 Faculty Advisor for Biomedical Science Careers Student Conference for Minority Students, Harvard Medical School

2003 Medical Students, Supervisor of research project - HMS Pre-Matriculation Summer Enrichment Program for Minority Students, Harvard Medical School

2003 Senior Faculty Mentor, Council of Distinguished Scholars Mentoring Conference, Harvard Medical School

2004 Medical Student, Supervision of summer research project - HMS Pre-Matriculation Summer Enrichment Program for Minority Students, Harvard Medical School

2004 Medical Student, Supervision of summer research project, Massachusetts General Hospital

2004 Small Group Discussion Leader, HMS Leadership Development for Physicians and Scientists, Harvard Medical School

2005 Undergraduate Student (Tufts University), Supervision of research project, Massachusetts General Hospital

2006 Predoctoral Student, Biomedical Research Career Award supervisor, Massachusetts General Hospital

2006 Medical Students, Supervisor of research project - HMS Pre-Matriculation Summer Enrichment Program for Minority Students, Harvard Medical School

2006 Predoctoral Student, Clinical Research Internship, Massachusetts General Hospital

2007 Medical Student, Supervision of research project, Massachusetts General Hospital

2007 Nursing/NP Student, Supervision of research experience, Massachusetts General Hospital

2007 Medical Student, Supervision of research experience, Massachusetts General Hospital

2007-2009 MD Research Fellow, MD (FMG) full-time Supervision of research experience and

2008-2015 scholarly writing, Massachusetts General Hospital
 MD Research Fellow Full-time Supervision of research experience, Massachusetts General Hospital
 2009- 2014 Post-graduate and Undergraduate Student Supervision of research experience, Massachusetts General Hospital
 2015-2016 Post-Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2016-2017 Post-Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2017-2018 Post-Doctoral Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2018 Intramural Summer Research Training Program, NIEHS, Research Triangle Park, NC
 2018-2019 Post-Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2018-2019 NIEHS Medical Student Research Fellow, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2019-2021 Post-Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2019-2021 Fellow in Endocrinology & Metabolism, NIH Inter-Institute Training Program, Bethesda, MD and Research Triangle Park, NC
 2021-2023 Post Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2022-2023 Post Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2022-2023 NIEHS Medical Student Research Fellowship, Research Triangle Park, NC
 2023- Post Baccalaureate Student, Intramural Research Training Program, NIEHS, Research Triangle Park, NC
 2023- Endocrine Fellow, Duke University (supported by the NIEHS Diversity Post-bac Fellowship)
 2023- Endocrine Fellow, NIH Inter-institute Endocrine Training Program
 2023- NIH Medical Scholar Research Program Fellow

e. Leadership Roles

1985-1986 Coordinator, Reproductive Endocrine Unit Basic Science Seminar Series, Massachusetts General Hospital
 1987-1989 Coordinator, Reproductive Endocrine Unit Journal Club, Massachusetts General
 1988-1990 Course Director, Reproductive Endocrine Unit Clinical Conference Series, Massachusetts General Hospital
 1988-1991 Co-Director, Reproductive Endocrine Post-Graduate Course, Massachusetts General Hospital
 1990- Co-Director, Biomedical Research Career Award Program, Reproductive Endocrine Unit, Massachusetts General Hospital
 1993-1997 Staff Supervisor, Reproductive Endocrine Unit Clinical Conference Series, Massachusetts General Hospital
 1995-1997 Co-Director, MGH/BWH Joint Reproductive Endocrinology Research Seminar Series, Brigham and Women's Hospital and MGH
 1996-2004 Course Director, Introduction to Clinical Investigation, Clinical Research Program, Massachusetts General Hospital

1997-2005	Course Development and Director, Design and Conduct of Clinical Trials, Clinical Research Program, Massachusetts General Hospital
1998-1999	Course Development and Director, Issues in Physiologic Investigation, Clinical Research Program, Massachusetts General Hospital
1998-2004	Co-Director of Seminars in Biostatistics, Clinical Research Program, Massachusetts General
1998-2004	Co-Director of Grant-Writing Seminar, Clinical Research Program, Massachusetts General Hospital
2002	Co-Director, Recruiting Minority Women into Clinical Trials, Harvard Medical School
2011	Course Director, Design and Implementation of Clinical Trials, CATALYST (CTSA), Harvard Medical School

f. Advisees/Trainees (* female; ** underrepresented)

<i>Training Duration</i>	<i>Name</i>	<i>Current Position</i>
1988-1990	*Ann E. Taylor, MD	Translational Sciences Head for Diabetes & Metabolism, Novartis Inc.
1989-1990	*Lori Kaplowitz, MD	Child Psychiatry/Women's Health, Cambridge City Hospital
1992-1993	*,**Tamara Callahan, MD	Associate Professor of Ob/Gyn, Vanderbilt School of Medicine, Medical Director, Ob/Gyn, Vanderbilt Clinic
1993-1994	*Linda Spence	Medical School, Ireland
1993-1995	*Vivian Fuh, MD	Director, Worldwide Regulatory Affairs, Merck Research Labs
1994 -	*Corryne K. Welt, MD	Professor of Medicine, University of Utah Medical School
1995-1996	*Catherine Rowbatham, MSc, MBA	Organizational Development, General Electric
1996-1997	*Carrie Strauss, MD	Department of Emergency Medicine, Lee Memorial Hospital, Fort Meyers, FL
1996-1998	*Julie Sharpless, MD	Assistant Professor of Medicine, University of North Carolina Chapel Hill, NC
1996-1998	*Helen Lavoie, MD	Associate Professor of Medicine, University of Montreal; Consultant in Reproductive Endocrinology and Director of Clinical Research, Procrea BioScience, Montreal, CA
1996-2003	*,**Erica Marsh, MD	Edowed Professor of Obstetrics & Gynecology, University of Michigan School of Medicine, Ann Arbor, MI
1998-1999	Yousef Bo-Abbas, MD	Assistant Professor of Medicine, Kuwait University
1999-	*Hadine Joffe, MD	Professor of Psychiatry, Brigham & Women's Hospital, Harvard Medical School
1999	*Annie Brewster, MD	Graduate, Harvard Medical School
1999-2001	*Sabrina Gill, MD	Clinical Associate Professor, Division of Endocrinology & Metabolism, University of British Columbia
1999-	*Elizabeth Klerman, MD	Professor of Medicine, Harvard Medical School, Associate Physician, Massachusetts General Hospital and Division of Sleep Medicine, Harvard Medical School
2000	*Sue Gurgel, MD	Graduate, Harvard Medical School
2000	*Leah Doret, MD	Graduate University of Massachusetts Medical School; Fallon Clinic, Charlton, MA

2000-2003	*,**Yanira Pagan, MD	Professor of Pediatrics, University of Puerto Rico School of Medicine
2000-2003	*Marcia Ellison, PhD	Ellertson Fellow, Bixby Center for Reproductive Health Research & Policy Dept. of Obstetrics, Gynecology & Reproductive Sciences University of California, San Francisco
2000-2004	*,**Tami Tiamfooks, MD	Emergency Medicine, Dayton, Ohio
2001-2004	Myles Wolfe, M.D.	Professor of Medicine, Duke University Medical School
2003	*,**Roberta Capp, MD	Graduate, Harvard Medical School and Emergency Medicine Fellowship, Brigham & Women's Hospital
2003-2004	William Ottowitz, MD	Graduate School of Arts and Sciences, Columbia University
2004	Fred Papali, MD	Graduate, McGill University School of Medicine
2004	*,**Amsalu Dabela, MD	Graduate, Harvard Medical School
2004-2007	*Serene Srouji, MD	Associate Professor, Obstetrics & Gynecology, Brigham & Women's Hospital, Harvard Medical School
2005-2007	*Stephanie Histed, MD	Graduate, UCLA School of Medicine
2006	*,**Crysela Smith, MD	Graduate, Harvard Medical School
2007	*Julie Lamusta, MD	Graduate, University of Massachusetts Medical School
2007-2009	*Alice Lorch, MD	Graduate, Harvard Medical School
2007	*Melanie (Knapp) Gaucher, BA	Emerson College School of Nursing
2007-2009	*Anupam Gupta, MD	Research Associate
2008	*Nicole Panico	Amherst College, Massachusetts
2008-	*Natalie Shaw, MD	Assistant Professor, Children's Hospital Boston and Research Fellow, Massachusetts General Hospital; Tenure-Track Investigator, NIEHS, Research Triangle Park, NC
2009-2011	*Kara Klingman, MD	Pathologist, University of Vermont Medical School
2009-	Brent Abel, BSc	Tufts University Student; Research Assistant NIH Clinical Center, USCF Medical School
2010	*Jenifer Brown, MD	Harvard Medical School
2011-2018	*Kristina Delgianadis, MD	Hofstra Northwell School of Medicine, Feinstein Institute for Medical Research
2011-2012	*Kathryn Williams, MD	Graduate, Cornell Medical School
2012-2014	Taylor Huhta, BSc	Tufts Medical School
2014-2018	*Angela Delaney, MD	St. Jude Children's Research Hospital, Memphis, TN
2015-2016	*Devin Sullivan, DO	Philadelphia Osteopathic School of Medicine
2016-2017	Kyle Brunner, BSc	NIEHS, Postbac Intramural Research Training Award
2017-2018	**Askia Dunnon, MD	NIEHS, Postdoctoral Intramural Research Training Award
2018	*,**Chevonne Parker	NIEHS, Intramural Summer Research Training Award (Yale University)
2018-2019	*,**Helen Leka, BSc	UCLA School of Medicine
2018-2019	*Anne Kim, MD	NIEHS Medical Student (Lerner College of Medicine) Research Fellow; Ob/Gyn Fellow, University of Pennsylvania
2019-2021	*,**Joselyne Tessa Toneau	UVA Medical School
2019-2021	Skand Shekhar, MD	Research Fellowship, Inter-institute Fellowship in Endocrinology, NIH
2020-2021	*,**Chinelo Okigbo, MD	UNC Endocrinology & Metabolism Fellowship Training

2021-2023	Ethan Brown, BSc	Program, Chapel Hill and Research Triangle Park, NC Postbaccalaureate, Intramural Research Training program, NIEHS, NIH → Hofstra Norwell Medical School
2022-2023	Gloria Choi, BA	Postbaccalaureate, Intramural Research Training program, NIEHS, NIH → University of Illinois Chicago Medical School
2022-2023	Lindsay Levine, BSc	NIEHS Medical Student (Perlman School of Medicine) Research Training Program, NIEHS

g. Local Invited Presentations, Case Preparation and Comments

1986-1990	"Reproduction in Men and Women", Seminar, MGH Institute of Health Professions, Boston, MA
1987	"Use of a GnRH Antagonist in Women", Oral Presentation, MGH Research Symposium XI, Massachusetts General Hospital
1990	"The Use of GnRH Antagonists as Physiologic Probes", Obstetrics & Gynecology Rounds, Brigham and Women's Hospital, Boston, MA
1990	"Pulsatile GnRH in Patients with Reproductive Dysfunction", Obstetrics & Gynecology Rounds, Massachusetts General Hospital
1990	"Pulsatile GnRH for Treatment of Infertility", Interview, Channel 7, Boston, MA
1990	"Pulsatile GnRH in Hypogonadotropic Hypogonadism", Pediatric Endocrine Rounds, Massachusetts General Hospital
1991	"GnRH Antagonists: Insights into the Differential Control of LH and FSH", Endocrine Grand Rounds, Massachusetts General Hospital
1991	"The Use of GnRH Antagonists to Provide Insights into the Control of Reproduction", Endocrine Grand Rounds, Tufts New England Medical Center, Boston, MA
1991	"Medical Implications of Polycystic Ovarian Disease", Medical Grand Rounds Massachusetts General Hospital
1992	"Acquired GnRH Deficiency", Pediatric Endocrine Rounds, Massachusetts General Hospital
1992	"Ovulation Induction: Evaluating the Choices", Medical Grand Rounds, Massachusetts General Hospital
1992	"GnRH Antagonists as Physiologic Probes", Endocrine Grand Rounds, Brigham and Women's Hospital, Boston, MA
1993	Clinical Pathological Conference, Massachusetts General Hospital
1993	"GnRH Antagonists in Reproductive Endocrinology", Seminar, Executive Committee on Research, Massachusetts General Hospital
1994	"Economic Impact of Multiple Gestation", Seminar, Boston Fertility Society, Boston, MA
1994	"GnRH Antagonists in Clinical Investigation", Obstetrics & Gynecology Rounds, Beth Israel Hospital, Boston, MA
1994	"Polycystic Ovarian Syndrome: Metabolic Complications", Medical Grand Rounds, Massachusetts General Hospital
1995	"New Perspectives in Polycystic Ovarian Syndrome", Endocrine Grand Rounds, Boston City Hospital, Boston, MA
1996	"Diagnosis and Treatment of PCOS", Medical Grand Rounds, Mount Auburn Hospital, Cambridge, MA
1996	"Treatment of Acquired Hypogonadotropic Hypogonadism", Endocrine Grand

- Rounds, Boston Children's Hospital, Boston, MA
- 1996 Case Discussion, Medical House Staff Rounds, Massachusetts General Hospital
- 1997 Case Discussion, Medical House Staff Rounds, Massachusetts General Hospital
- 1997 "Polycystic Ovarian Syndrome: Understanding the Pathophysiology", Obstetrics & Gynecology Rounds, Brigham and Women's Hospital, Boston, MA
- 1997 "PCOS: Understanding the Spectrum of the Disorder", Endocrine Grand Rounds, Beth Israel Hospital, Boston, MA
- 1997 "Polycystic Ovarian Syndrome: New Perspectives", Endocrine Grand Rounds, Brigham and Women's Hospital/Children's Hospital, Boston, MA
- 1998 "New Perspectives in the Diagnosis and Management of PCOS", Endocrine Grand Rounds, University of Massachusetts Medical Center, Worcester, MA
- 2000 Case Discussion, Medical House Staff Rounds, Massachusetts General Hospital
- 2000 "Physiology and Pathophysiology of Inhibin in Women", Endocrine Grand Rounds, Boston City Hospital, Boston, MA
- 2000 "Diagnosis and Medical Management of PCOS", Medical Grand Rounds, Falmouth Hospital, Cape Cod, MA
- 2000 "PCOS: What the Internist Should Know", Medical Grand Rounds, Lawrence General Hospital, Lawrence, MA
- 2000 "Physiology of Inhibin in Women", Obstetrics & Gynecology Rounds, Massachusetts General Hospital
- 2002-2009 "Polycystic Ovarian Syndrome: Diagnosis and Management", Seminar, MGH Institute of Health Professions, Boston, MA
- 2001 Keynote Speaker, "Aging of the Reproductive System: A Multifaceted Process", Center of Excellence in Women's Health, Harvard Medical School, Boston, MA
- 2001 "Inhibin in Reproductive Medicine: Physiology and Clinical Applications", Seminar, Boston Fertility Society, Boston, MA
- 2002 "Reproductive Aging in Women", Obstetrics & Gynecology Rounds, Brigham and Women's Hospital, Boston, MA
- 2002 "Aging of the Reproductive System: A Multifaceted Process", Endocrine Grand Rounds, Beth Israel Hospital, Boston, MA
- 2002 Case Discussion, Medical House Staff Rounds, Massachusetts General Hospital
- 2003 Keynote Speaker, "Managing the Perimenopause", Revere Health Center Postgraduate Day, Massachusetts General Hospital
- 2003 "The Relationship of Valproate to PCOS", Endocrine Grand Rounds, Massachusetts General Hospital
- 2003 "Reproductive Aging: Insights into the Brain", Endocrine Grand Rounds, Brigham and Women's Hospital, Boston, MA
- 2003 Career Pathways in Medicine, Panel, Office of Women's Careers Massachusetts General Hospital
- 2003 "Reproductive Endocrinology, Basics and Effects of Aging", Seminar, MGH General Clinical Research Center
- 2003 "Clinical Research in Academic Health Centers/Translational Research", Seminar, MGH Institute of Health Professions, Boston, MA
- 2004 "Aging of the Neuroendocrine System: Insights into the Brain", Rounds, MGH Senior Health Clinic, Massachusetts General Hospital
- 2004 "Understanding Infertility: Choices and Concerns During a Challenging Time", Seminar, Women's Health Coordinating Council, Massachusetts General Hospital
- 2004 MGH Career Planning Session for Medical House Staff, Panel, Massachusetts General Hospital
- 2004 "New Perspectives in PCOS: Implications for Diagnosis and Management", Pediatric Endocrine Rounds, Massachusetts General Hospital

- 2004 "Sleep and Circadian Effects on the Female Reproductive System", Sleep Grand Rounds, Harvard Medical School Division of Sleep Medicine, Boston, MA
- 2005 "The Impact of Infertility on Families: Perspectives from Patient Care and Clinical Research", Schwartz Center Rounds, Massachusetts General Hospital Institute of Health Professions, Boston, MA
- 2005 Building a Research Program, Panel, Clinical Research Program K Club, Massachusetts General Hospital
- 2006 "PCOS: What's in a Definition?", Endocrine Grand Rounds, Massachusetts General Hospital
- 2006 "Understanding the Menopausal Transition: Implications for Management", Medical Grand Rounds, Massachusetts General Hospital
- 2006 "Menstrual Disorders", Medical Grand Rounds, Harvard University Health Services, Cambridge, MA
- 2008 "The Spectrum of PCOS: Diagnosis and Metabolic Issues", MGH Obesity Center Rounds, Massachusetts General Hospital
- 2007 "Postmenopausal Hyperandrogenism", Endocrine Grand Rounds, Massachusetts General Hospital
- 2008 "How to write a grant: who reviews grants and what are they looking for?" Overview and Panel Discussion, Massachusetts General Hospital Postdoc Association and the Office for Research Career Development, Massachusetts General Hospital
- 2008 "The Path to Independence as a Clinical Investigator", Longitudinal Seminar, Scholars in Clinical Science Program, Harvard Medical School, Boston, MA
- 2009– 2014 "Academic Careers in Clinical Translational Research", Partners Health Service Clinical Fellows Retreat. Boston, MA
- 2015 "The Role of Genetics in Expanding the Phenotype of GnRH Deficiency" Endocrine Grand Rounds, NIH, Bethesda, MD
- 2015 "The Neuroendocrine Control of Reproduction: A Model of Translational Research" ESCBL Seminar, NIEHS, Research Triangle Park, NC
- 2016 Lunch Seminar, Duke Scholars in Endocrinology, Nutrition, and Metabolism, Duke University, Durham, NC
- 2016 "Treatment of Menopause – Filling a Ten-Year Educational Gap" Endocrine Teaching Seminar, NIH, Bethesda, MD
- 2016-2018 "Balancing Act" Panel Discussion, Medical Research Scholars Program, NIH, Bethesda, MD
- 2018- "Diagnosis & Management of Amenorrhea", "Menopause: Weighing the Options", Endocrine Teaching Seminars, NIH, Bethesda, MD
- 2018- "Reproductive Aging", "Management of the Perimenopause & Menopause", GnRH Deficiency: Multiple Discoveries from a Rare Disorder", UNC Reproductive Endocrine & Infertility Seminars, Durham, NC
- 2020 "Diagnosis and Management of Amenorrhea & Hyperandrogenism: Part 1", UNC Endocrinology & Metabolism Seminars, Chapel Hill, NC

2.1 Regional, national, or international contributions

a. Invited Presentations

- 1984 "The Menstrual Cycle and Physical Activity", U.S. Olympic Committee, Colorado Springs, CO
- 1985 "Paradoxical Effects of a GnRH Antagonist", Workshop on LHRH Analogs,

- Contraceptive Development Branch, NIH, Bethesda, MD
- 1986 "The NAL-ARG GnRH Antagonist: Dose-Response Relationships in Early Follicular Phase Women", Workshop on LHRH Analogs, Contraceptive Development Branch, NIH, Bethesda, MD
- 1986 "Exercise-Related Amenorrhea: Effects of Exercise on the Menstrual Cycle", Medical Grand Rounds, Victoria General Hospital, Vancouver, Canada
- 1986 Lecturer, Sports Medicine Seminar, BC Sport Medicine, Whistler, Canada
- 1986 Lecturer, International Seminar on Sports Medicine, Toronto, Canada
- 1988 "Abnormal GnRH Secretion in Hypothalamic Amenorrhea and the Use of Pulsatile GnRH", Endocrine Grand Rounds, McMaster University Medical School, Hamilton, Canada
- 1988 "New Treatments for Infertility: Pulsatile GnRH in Men and Women", Interview, CNN
- 1988 "Acute Effects of GnRH Receptor Blockade in Normal Women: Studies of the NAL-GLU GnRH Antagonist", Workshop on LHRH Analogs and Reproductive Peptides, Contraceptive Development Branch, NIH, Bethesda, MD
- 1989 "Effect of Blockade of GnRH-Dependent Pituitary Support of the Ovary", Workshop on LHRH Analogs and Reproductive Peptides, Contraceptive Development Branch, NIH, Bethesda, MD
- 1990 "Use of GnRH Antagonists as Physiologic Probes in Women", Modes of Action of GnRH and GnRH Analogues, Scottsdale, AZ
- 1991 "GnRH Antagonists in Women: Physiologic and Clinical Studies", Symposium Presentation, Endocrine Society Annual Meeting, Washington, DC
- 1992 "GnRH Antagonists: What do they teach us about the physiology and pathophysiology in women?", Endocrine Grand Rounds, Yale University School of Medicine, New Haven, CT
- 1992 "Gonadotropin and Androgen Responses to GnRH Antagonists in PCOS", Endocrine Grand Rounds, University of Chicago, Chicago, IL

b. Professional Leadership Roles

1993 National Institute of Health
Co-Chairperson, NIH Conference "Kallmann's Syndrome: A Disorder of Neuronal Migration", Bethesda, MD

1994 Endocrine Society
Chair, Reproductive Endocrine Section, Endocrine Postgraduate Assembly, Toronto, ON, Canada

1995 National Institutes of Child Health and Disease, NIH Co-Chair, NIH Conference "Psychobiology of Infertility", Bethesda, MD

1998 Endocrine Society
Chair, Reproductive Endocrine Section, Clinical Endocrine Update, Boston, MA

1999-2001 Endocrine Society/Up-to-Date
Section Editor, Endocrine Self Assessment Program, Endocrine Society/Up-to-Date

2000 Association of Program Directors in Endocrinology & Metabolism
Chair, Reproductive Endocrine Section, Curriculum Development Committee

2003 Endocrine Society
Chair, Reproductive Endocrine Section, Clinical Endocrine Update, Miami, FL

2003-2006 Endocrine Society
Vice President, Clinical Science

2004 Ferring Symposia
Scientific Program Committee, Updates in Infertility Treatment, Marco Island, CA

2005 Endocrine Society
Chair, Reproductive Endocrine Section, Clinical Endocrine Update, Toronto, ON, Canada

2005 Endocrine Society
Co-Director, Clinical Investigators Workshop for Trainees, Boston, MA

2006 Endocrine Society
Team Leader, Reproductive Section, 2008 Annual Meeting Steering Committee, Boston, MA

2006 Endocrine Society
Chair, Clinical Scientist Taskforce

2006-2008 Women in Endocrinology
President

2007 Endocrine Society
Team Leader, Reproductive Section, 2007 Annual Meeting Steering Committee, Toronto, ON, Canada

2007-2008 Endocrine Society
Co-Chair, Bridge Grant Program

2008 Endocrine Society
Team Leader, Reproductive Section, 2007 Annual Meeting Steering Committee, San Francisco, CA

2010 Endocrine Society
President Elect

2010-2011 Endocrine Society, Strategic Planning Committee

2010-2013 Endocrine Society, Executive Committee

2010-2013 Endocrine Society, Performance & Compensation Steering Committee

2011 STRAW+10 Symposium and Workshop
Planning Committee and Moderator, Washington, DC

2011 Endocrine Society
President

2012 Endocrine Society
Immediate Past President
2014 Endocrine Society
Sex Steroid Assays Reporting Task Force
2016- Senior Leadership Committee, NIEHS
2016- Clinical Director, NIEHS
2016- Branch Chief, Clinical Research Program, Division of Intramural
Research, NIEHS

3. Awards

2000 A. Clifford Barger Excellence in Mentoring Award
Harvard Medical School
2005 Partners in Excellence Award for Development and Directing, Design and Conduct of
Clinical Trials Course, Massachusetts General Hospital
